January 2017 to January 2018 PGDM Business Analytics Great Lakes Institute of Management & Illinois Institute of Technology
January 2013 Bachelor of Engineering Electronics and Communication Bengaluru, Karnataka New Horizon College of Engineering, Bangalore Visvesvaraya Technological University
Data Science Consultant

Consultant - Deloitte USI

Skill Details

LINEAR PROGRAMMING- Exprience - 6 months

RETAIL- Exprience - 6 months

RETAIL MARKETING- Exprience - 6 months

SCM- Exprience - 6 months

SQL- Exprience - Less than 1 year months

Deep Learning- Exprience - Less than 1 year months

Machine learning- Exprience - Less than 1 year months

Python- Exprience - Less than 1 year months

R- Exprience - Less than 1 year months

Company Details

company - Deloitte USI
description - The project involved analysing historic deals and coming with insights to optimize future deals.

Role: Was given raw data, carried out end to end analysis and presented insights to client.

Key Responsibilities:

a Extract data from client systems across geographies.

a Understand and build reports in tableau. Infer meaningful insights to optimize prices and find out process blockades.

Technical Environment: R, Tableau.

Industry: Cross Industry

Service Area: Cross Industry - Products

Project Name: Handwriting recognition

Consultant: 3 months.

The project involved taking handwritten images and converting them to digital text images by object detection and sentence creation.

Role: I was developing sentence correction functionality.

Key Responsibilities:

a Gather data large enough to capture all English words

a Train LSTM models on words.

Technical Environment: Python.

Industry: Finance

Service Area: Financial Services - BI development Project Name: SWIFT

Consultant: 8 months.

The project was to develop an analytics infrastructure on top of SAP S/4, it would user to view

financial reports to respective departments. Reporting also included forecasting expenses.

Role: I was leading the offshore team.

Key Responsibilities:

a Design & Develop data models for reporting.

a Develop ETL for data flow

a Validate various reports.

Technical Environment: SAP HANA, Tableau, SAP AO.

Industry: Healthcare Analytics

Service Area: Life Sciences - Product development Project Name: Clinical Healthcare System

Consultant: 2 months.

The project was to develop an analytics infrastructure on top of Argus, it would allow users to query faster and provide advance analytics capabilities.

Role: I was involved from design to deploy phase, performed a lot of data restructuring and built

models for insights.

Key Responsibilities:

a Design & Develop data models for reporting.

a Develop and deploy analytical models.

a Validate various reports.

Technical Environment: Data Modelling, SAP HANA, Tableau, NLP.

Industry: FMCG

Service Area: Trade & Promotion

Project Name: Consumption Based Planning for Flowers Foods Consultant; 8 months.

The project involved setting up of CRM and CBP modules.

Role: I was involved in key data decomposition activities and setting up the base for future year

forecast. Over the course of the project I developed various models and carried out key performance improvements.

Key Responsibilities:

- a Design & Develop HANA models for decomposition.

- a Develop data flow for forecast.

- a Developed various views for reporting of Customer/Sales/Funds.

- a Validate various reports in BOBJ.

Technical Environment: Data Modelling, SAP HANA, BOBJ, Time Series Forecasting.

Internal Initiative Industry: FMCG

Customer Segmentation and RFM analysis Consultant; 3 months.

The initiative involved setting up of HANA-Python interface and advance analytics on Python.

Over the course I had successfully segmented data into five core segments using K-means and carried out RFM analysis in Python. Also developed algorithm to categorize any new customer under the defined buckets.

Technical Environment: Anaconda3, Python3.6, HANA SPS12

Industry: Telecom Invoice state detection Consultant; 1 months.

The initiative was to reduce the manual effort in verifying closed and open invoices manually, it

involved development to a decision tree to classify open/closed invoices. This enabled effort reduction by 60%.

Technical Environment: R, SAP PAL, SAP HANA SPS12

Accenture Experience

Industry: Analytics - Cross Industry

In Process Analytics for SAP Senior Developer; 19 months.

Accenture Solutions Pvt. Ltd., India

The project involved development of SAP analytics tool - In Process Analytics (IPA) . My role was to develop database objects and data models to provide operational insights to clients.

Role: I have developed various Finance related KPIs and spearheaded various deployments.

Introduced SAP Predictive analytics to reduce development time and reuse functionalities for KPIs and prepared production planning reports.

Key Responsibilities:

- a Involved in information gather phase.

- a Designed and implemented SAP HANA data modelling using Attribute View, Analytic View, and Calculation View.

- a Developed various KPI's individually using complex SQL scripts in Calculation views.

- a Created procedures in HANA Database.

- a Took ownership and developed Dashboard functionality.

- a Involved in building data processing algorithms to be executed in R server for cluster analysis.

Technical Environment: R, SAP HANA, T-SQL.

Industry: Cross Industry

Accenture Testing Accelerator for SAP Database Developer; 21 months.

Accenture Solutions Pvt. Ltd., India

Role: I have taken care of all development activities for the ATAS tool and have also completed

various deployments of the product.

Apart from these activities I was also actively involved in maintenance of the database servers

(Production & Quality)

Key Responsibilities:

- a Analyzing business requirements, understanding the scope, getting requirements clarified interacting with business and further transform all requirements to generate attribute mapping documents and reviewing mapping specification documentation

- a Create / Update database objects like tables, views, stored procedures, function, and packages

- a Monitored SQL Server Error Logs and Application Logs through SQL Server Agent

- a Prepared Data Flow Diagrams, Entity Relationship Diagrams using UML

- a Responsible for Designing, developing and Normalization of database tables

a Experience in performance tuning using SQL profiler.

a Involved in QA, UAT, knowledge transfer and support activities

Technical Environment: SQL Server 2008/2014, Visual Studio 2010, Windows Server, Performance Monitor, SQL Server Profiler, C#, PL-SQL, T-SQL.
